DJ-LX-05 迷你型离心泵
DJ-LX-05 Mini centrifugal pump

DONJOY DJ-LX 系列离心泵不仅优化了内部结构、叶轮设计、死角处理、机封压力平衡设计且机封完全被处在冲洗区域。我们还对泵外部卫生也进行了优化，使其内部绝对卫生、外部减少死角，由于没有死角区域，它非常容易被CIP清洗、SIP杀菌等。另外我们对DJ-LX 系列泵保持了最大的灵活性组合应用，如，泵出口角度可以从 0° - 135° 之间任意调整，泵盖采用手轮螺母，这样对泵维护和保养及机封的更换，保持了高效，降低了人员高度专业性的要求，而完成这些无需特殊的工具。因而达到了、高效、卫生、高可靠性及低成本的目的，使DJ-LX 系列离心泵成为一款高性能的泵。

Donjoy DJ-LX series centrifugal pump, not only optimize the internal structure, such as impeller design, dead angle treatment, mechanical seal is designed as pressure balance and completely in flushing area, but also optimize external sanitation of the pump, which make internal absolute sanitation and reduce external dead angle. Since there is no dead angle area, it is easy to be cleaned by CIP and sterilized by SIP. In addition, DJ-LX series pump, has kept the maximum flexibility of combined applications, for example, the pump outlet angle can be arbitrarily adjusted from 0° to 135° , the pump cover adopts hand wheel nut, which keeps high efficiency in the maintenance of the pump and replacement of mechanical seal without special tool, and reduces the highly professional requirements to maintenance personnel. Therefore, the DJ-LX series centrifugal pump has achieved the goal of high efficiency, hygiene, high reliability and low cost, making it a high performance pump.

Donjoy DJ-SLX series centrifugal pump is designed in whole SS, including motor, not only optimize the internal structure, such as impeller design, dead angle treatment, mechanical seal is designed as pressure balance and completely in flushing area, but also optimize external sanitation of the pump, which makes internal absolute sanitation and reduce external dead angle. Since there is no dead angle area, it is easy to be cleaned by CIP and sterilized by SIP. In addition, DJ-SLX series pump, has kept the maximum flexibility of combined applications, for example, the pump outlet angle can be arbitrarily adjusted from 0° to 135° , the pump cover adopts hand wheel nut, which keeps high efficiency in the maintenance of the pump and replacement of mechanical seal without special tool, and reduces the highly professional requirements to maintenance personnel. Therefore, the DJ-SLX series centrifugal pump has achieved the goal of high efficiency, hygiene, high reliability and low cost, making it a high performance pump.
